SUMMARY

Full Stack Web Developer with 2+ years of experience building performant, accessible web applications with React.js, Next.js, Node.js, and Shopify Liquid. Focused on WCAG 2.1 AA accessibility engineering, RESTful API design, and Microsoft Azure cloud integration. Track record of shipping measurable performance gains and clean, maintainable code within Agile teams.

EXPERIENCE

Web Programmer I

Quess Corp Limited (assigned to Resideo Smart Home Technologies)

May 2025 – Present

Bengaluru, India

- Engineer WCAG 2.1 AA-compliant UI components for HoneywellHome and First Alert Shopify storefronts with React.js, Next.js, and Liquid, resolving keyboard-navigation, focus-order, and screen-reader defects across mega menus, product galleries, and search.
- Build and optimize front-end features with React.js, Next.js, and Node.js, cutting page load times by up to 30%.
- Integrate Microsoft Azure services for authentication, storage, and CI/CD, streamlining release workflows.
- Manage enterprise content through Sitecore CMS and XML, improving content-delivery accuracy and turnaround.

Full Stack Developer

Futureol Infotech Pvt. Ltd.

Aug 2024 – Feb 2025

Bengaluru, India

- Delivered full-stack applications with Angular, Node.js, Express, and MySQL/PostgreSQL.
- Designed and secured REST APIs using JWT and OAuth 2.0 authentication.
- Tuned backend logic and database queries, improving average response time by 25%.
- Partnered with cross-functional Agile teams, using Git and JIRA to plan, track, and ship releases.

Full Stack Developer Intern

Take It Smart Pvt. Ltd.

Aug 2023 – Oct 2023

Bengaluru, India

- Built an e-commerce grocery platform covering authentication, product management, and order workflows.
- Integrated third-party REST APIs and resolved defects through systematic debugging and testing, improving platform stability.

PROJECTS

AI-Based Smart Hydroponics System | Python, Machine Learning, IoT

2024

- Designed an IoT-based hydroponics platform applying KNN, ANN, and Lasso regression models for predictive crop optimization.
- Achieved a plant growth rate of 0.9 cm/day through real-time sensor-data analysis and model tuning; presented findings at the ICWITE conference.

IoT-Based Waste Management System | Python, Flask, React, PostgreSQL

2023

- Built a smart waste-segregation system that classifies waste automatically using sensor input.
- Developed a real-time monitoring dashboard that improved operational visibility and response time.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL

Frontend: React.js, Next.js, Angular, Shopify/Liquid, HTML5, CSS3

Backend: Node.js, Express.js, Django, Flask

Databases: MySQL, PostgreSQL

Cloud/DevOps: Microsoft Azure, Docker, Jenkins, Git, GitHub

Other: RESTful API Design, WCAG 2.1 AA Accessibility, Sitecore CMS, JIRA, Agile/Scrum

CERTIFICATIONS

[Python Pro Bootcamp](#) – Udemy (2023)

[Web Development Bootcamp](#) – Udemy (2022)

[Java Full Stack Course](#) – Quntnex (2024)

[eSim Certification](#) – IIT Bombay

EDUCATION

Vemana Institute of Technology

B.E. Electronics and Communication

Bengaluru, India

2020 – 2024
