EDUCATION

Vemana Institute of Technology
B.E. in Electronics and Communication

Bengaluru
Dec. 2020 – May 2024

Sahyadri PU College
Pre-University

Kolar
May 2018 – July 2020

EXPERIENCE

Web Programmer 1

May 2025 – Present

Quess Corp Limited — Resideo Smart Home Technologies (India) Pvt. Ltd. Bengaluru, Karnataka, India (Hybrid)

- Built and deployed responsive web applications leveraging React.js, Next.js, and Node.js for dynamic user interfaces and high performance.
- Integrated Microsoft Azure services to enhance application scalability, reliability, and cloud data management.
- Utilized Sitecore CMS and XML to manage, deliver, and structure enterprise-level digital content efficiently.
- Enhanced application usability and performance by implementing modern UI/UX principles and accessibility standards.

Full Stack Web Developer

Aug 2024 – Feb 2025

Futureol Infotech Pvt. Ltd.

Bengaluru

- Developed and maintained dynamic web applications using Angular, Node.js, Express, and MySQL/PostgreSQL.
- Designed and optimized RESTful APIs for seamless frontend-backend communication and implemented authentication using JWT and OAuth.
- Ensured performance optimization, responsiveness, and Agile collaboration (Git, JIRA, Scrum).

Full Stack Web Developer

Aug 2023 – Oct 2023

Take It Smart Pvt. Ltd.

Bengaluru

- Developed a grocery shop website to facilitate a seamless and user-friendly shopping experience.
- Implemented authentication, product management, and order processing, integrating RESTful APIs.
- Optimized performance, security, and scalability through rigorous testing and debugging.

PROJECTS

AI-based Smart Hydroponics System | *Spigot API, Java, Maven, TravisCI, Git*

Mar 2024 – May 2024

- Developed a smart hydroponic system using ML algorithms (Lasso, KNN, ANN) and IoT sensors for optimal crop growth.
- Achieved higher accuracy in crop production, resulting in healthier and faster-developing plants.
- Demonstrated a plant growth rate of 0.9 cm/day, surpassing rates in previous IEEE papers.

Waste Management System using IoT | *Python, Flask, React, PostgreSQL, Docker*

June 2023

- The system separates waste into categories: wet, dry, electronic, and plastic waste, enhancing productivity.
- Each type of waste is detected by sensors and segregated into assigned bins, with details updated on the server.

ACHIEVEMENTS

- Presented a research paper on **AI-based Smart Hydroponics System** at ICWITE 2021. [Link](#)
- Completed eSim test by IIT Bombay (Spoken Tutorial project). [Link](#)

CERTIFICATIONS

Python Pro Bootcamp | *Udemy*

May 2023

Web Development Bootcamp | *Udemy*

Aug. 2022

JAVA FULL STACK course | *Quntnex*

Aug. 2024

TECHNICAL SKILLS

Languages: Java, Python, SQL (MySQL), JavaScript, HTML/CSS

Libraries/Frameworks: React, Next.js, Angular, Django, Node.js

Cloud & Platforms: Microsoft Azure, Sitecore CMS ,Shopify liq

Developer Tools: GitHub, Docker, VS Code, PyCharm, IntelliJ, Eclipse
